## Efficacy for SaniGuard Concentrated Hospital Grade Disinfectant

### Virucidal Efficacy

- |   |                              |    |                                   |
|---|------------------------------|----|-----------------------------------|
| 1 | HIV – 1 (AIDS Virus)         | 7  | Infectious Bovine Rhinotracheitis |
| 2 | HIV - 2                      | 8  | Influenza A2                      |
| 3 | Herpes Simplex – Types 1 & 2 | 9  | Pseudorabies                      |
| 4 | Canine Distemper             | 10 | Rotavirus                         |
| 5 | Feline picornavirus          | 11 | Vaccinia                          |
| 6 | Hepatitis B & C              |    |                                   |

### Mildew Fungistatic Efficacy

- 1 Aspergillus niger

### Fungicidal Efficacy

- 1 Trichophyton mentagrophytes
- 2 Candida albicans

### Bacteriacidal Efficacy

- |    |  |    |   |
|----|--|----|---|
| 1  | Staphylococcus aureus                          | 21 | Salmonella choleraesuis <b>subsp.</b> choleraesuis serotype paratyphi B |
| 2  | Salmonella choleraesuis                        | 22 | Salmonella choleraesuis <b>subsp.</b> choleraesuis serotype pullorum    |
| 3  | Pseudomonas aeruginosa                         | 23 | Salmonella choleraesuis <b>subsp.</b> choleraesuis serotype typhi B     |
| 4  | Bordetella bronchiseptica                      | 24 | Salmonellacholeraesuis <b>subsp.</b> choleraesuis serotype typhimurium  |
| 5  | Corynebacterium ammoniagenes                   | 25 | Serratia marcescens   |
| 6  | Enterobacter aerogenes                         | 26 | Shigella dysenteriae  |
| 7  | Enterobacter cloacae                           | 27 | Shigella flexneri Type 2b   |
| 8  | Enterococcus faecalis                          | 28 | Shigella sonnei   |
| 9  | Enterococcus faecalis                          | 29 | Staphylococcus aureus <b>subsp.</b> aureus                              |
| 10 | Enterococcus faecalis(vancomycin resitant)     | 30 | Staphylococcus aureus   |
| 11 | Escherichia coli                               | 31 | Staphylococcus aureus (Methicillin Resitant)                            |
| 12 | Fusobacterium necrophorum                      | 32 | Staphylococcus aureus (Vancomycin Intermediate Resitant)                |
| 13 | Klebsiella pneumoniae <b>subsp.</b> pneumoniae | 33 | Staphylococcus epidermidis  |
| 14 | Lactobacillus casei <b>subsp.</b> rhamnosus    | 34 | Staphylococcus pyogenes Group A   |
| 15 | Listeria monocytogenes                         | 35 | Staphylococcus pyogenes   |
| 16 | Pasteurella multocida                          | 37 | Xanthamonas maltophilia   |
| 17 | Proteus mirabilis                              | 38 | Xanthamonas axonopodis (pathovar citri)                                 |
| 18 | Proteus vulgaris                               |    |   |
| 19 | Pseudomonas fluorescens                        |    |   |
| 20 | Pseudomonas tolaaii                            |    |   |
